Summary

I work as a ReactJS Front-End Developer at Solace Infotech Pvt Ltd located in Pune. My 2+ year experience includes working with several local and international web development projects. I have hands-on experience in identifying web-based user interactions along with designing & implementing highly responsive user interface components by deploying React concepts. Proficient in translating designs & wireframes into high quality code and writing application interface code via JavaScript and ReactJS workflows. Adept at monitoring & maintaining front-end performance and troubleshooting & debugging the same to bolster overall performance. Concurrently, I also work in a hybrid role as ReactJS developer with Emtec Inc. at Pune. In June 2022, I was recognized as "Brilliant Solacian" award for my overall performance including talent, skills, and attitude towards the work culture of my current organisation.

Recently, I have also completed certifications for back-end tools such as NodeJS (JavaScript framework) and Mongo dB so that I can work as a full stack MERN developer in my future projects. I am proficient to interact with team members of diverse culture and geographically dispersed at different time zones. My GTD (get things done) attitude with eye of details helps me to accomplish my tasks within project timelines.

Education

- Bachelor of Technology in Electronics and Communication Engineering (B. Tech ECE; 2020): RR Institute of Modern Technology, Lucknow. (Affiliated from AKTU Technical University, Lucknow and All India Council for Technical Education, New Delhi). I recieved an average of 78.3% during B.Tech. studies and achieved 3rd ranking in my discipline.

- Intermediate (2016)- Government Inter College, Hardoi, Uttar Pradesh (affiliated with UP Board, Prayagraj) and achieved distinctions in the subjects of Math, English and Physics.
